

AceLock

ISC

Security Seals

AceLock is a versatile pull tight seal suitable for applications confined to small sealing space. It has an acetal locking mechanism which enhances security against tampering by heat. AceLock is easy to use and requires no tool for application or removal, making it an efficient and economical solution.

APPLICATIONS

- In-flight equipment - airline food cart/duty free trolley
- ATM cassettes
- Gaming
- Cash box/bag
- Small courier bags

FEATURES

- Variable loop design reinforced with acetal locking mechanism
- Thin sealing ribbon
- Side tear off option available

BENEFITS

- Enhanced security against tampering
- Suitable for sealing applications with small apertures and equipment latches
- User friendly and requires no tool for removal
